NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The Ascent Bucket™ is the market leader in drop prevention buckets and is designed to easily carry rope, tools or materials. Utilising its built-in load-rated lifting handle it can easily be hauled making it easier to transport when it's at full capacity.

Despite its seemingly small size, the Ascent Bucket™ can hold up to 100kg making it the ideal work-horse on-site.

Internally the Ascent Bucket™ features 6 load-rated anchor points for securing tools, as well as colour-coded loops at the base and top to easily manage your main and backup rope.

Constructed from Megatex™, the Ascent Pouch™ is extremely durable and made to withstand harsh environments and forces. Megatex™ is up to 7 times more abrasion-resistant than premium military-grade fabric.

The Ascent Bucket™ features a durable water-resistant roll-top closure, that when used with the built-in compression straps secures the contents even when inverted.

FEATURES

Constructed of our highly abrasion-resistant and durable Megatex™

- Load-rated lifting handle
- 6 integrated anchor points for multiple tool lanyard attachment
- Reinforced and raised bottom panel with drainage hole
- Water-resistant roll-top closure
- Removable top ring allows the bag to be packed down for easy storage when not in use
- Dual colour-coded loops at base and top to easily manage main and backup rope
- Clear window for including personal ID or to illustrate contents of the bag
- Load-rated external daisy chain for easily attaching items to the bucket

TECHNICAL SPECIFICATION

Max Load: 100 KG / 220 LBS, Internal Anchor Point / Daisy Chain Max Load: 5 KG / 11 LBS (each)

Safety Standards: ANSI/ISEA 121-2018, CE / UKCA, NS 9611:2022+AC, EN 1492-1

Load Tested and Third-party Certified: Static (7:1 Safety Factor), Dynamic (2:1 Safety Factor)

NLG ID™ Technology / Scannable Compatible

Unique Serial Number

Dimensions: 40cm (H) x 32cm (W) x 32cm (D)

Max Lanyard Length: 200 CM / 78 IN

Capacity: 30 L

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
