

NLG Heavy Duty Bungee Tool Lanyard

Product Code:
101373

Max Load:
20 KG / 44 LBS

OVERVIEW

The Heavy Duty Bungee Tool Lanyard has been designed for the harshest work environments and for securing those heavier tools that other lanyards struggle with. Featuring an abrasion-resistant webbing, a heavy-duty twistlock carabiner and a Dyneema® loop it really was built with durability in mind.

Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The Heavy Duty Bungee Lanyard is designed to handle the heavier tools and plant that other lanyards struggle with. It has become established as the tool lanyard of choice in some of the harshest working environments known on this planet.

Designed with ultra-durability and ease of use in mind, the Heavy Duty Bungee Lanyard is constructed from custom-developed, abrasion-resistant webbing and the highest quality hardware. At one end it features a Dyneema® loop for attaching directly to a tether point or to tools with a captive hole or handle and at the other it features a heavy-duty automatic twistlock carabiner that is easy to operate even with gloves on.

The Heavy Duty Bungee Lanyard truly is the ultimate tool tethering lanyard.

FEATURES

Automatic Twistlock carabiner for superior performance and security
 Extra high-strength webbing delivers ultimate peace of mind
 Heavy-duty wear protector sleeve provides an additional layer of structural protection
 Ultra-durable Dyneema® cinching loop
 Faster visual inspections with heavy-duty contrast stitching
 Clever contrast wear indicators ensure early warning of any structural damage

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
