NLG ID™
Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

Tether Loops™ create a rapid tether point suitable for any tool with a captive hole or handle – or even a shaped tool. So whether it's a hammer, saw or spanner, Tether Loops™ are effortless to self-install anywhere at any time. With its specially developed one-way thread and Lock Alert™ indicator for checking it is correctly installed, Tether Loops™ are a simple and time-saving method of creating an attachment point that is approved and third-party tested. Each Tether Loop™ comes with its own unique serial number. A tough aircraft-grade steel core with an extended thread mechanism ensures a fail-safe attachment point for tools up to 3kg in weight. Tether Loops™ are available in three sizes making them ideal for a wide range of tools.

FEATURES

Fast and easy installation with secure locking thumb screw
 Clever one-way thread and Lock Alert™ help ensure it's secure and correctly installed
 Tough aircraft-grade steel core
 Anti-puncture, abrasion-resistant PU protective sleeve makes maintenance effortless
 Comes in three sizes

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
