NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

Mobile phones remain one of the most commonly dropped objects. The NLG Phone Case overcomes this issue in one swoop. The NLG Phone Case is a protective case that will fit all the most commonly used mobile phones. The case's clear 'soft touch' cover allows the touch screen functionality to be retained and the design ensures there is no compromise to the phone's other important features such as audio and the camera. Combine the Phone Case with the Mini Coil Tool Lanyard and BiLock™ Velcro Anchor to create a complete and secure tethering system that allows the phone to be attached to any belt, harness or other attachment point and gives total access to the phone. The BiLock™ Velcro Anchor's unique docking pad allows you to dock the phone, making it quick to access and avoiding the need to use a pocket.

FEATURES

Compatible with all common smartphones
 Provides full phone functionality, including camera
 Carefully engineered not to compromise the audio quality of the phone
 Charging slot allows trouble-free charging cable connection
 Non-conductive, lightweight plastic D Ring for tool lanyard attachment

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
