

# NLG BiLock™ Velcro Anchor

Product Code:  
101422

Max Load:  
3 KG / 6.6 LBS

## OVERVIEW

The BiLock™ Velcro Anchor allows for the quick addition of a secure anchor point to tool belts, harnesses and rails. The unique Double Lock Velcro allows this anchor to be attached without having to remove the item and features a velcro docking pad to attach compatible products.

## NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

## Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact [team@neverletgo.com](mailto:team@neverletgo.com).

DESCRIPTION

The BiLock™ Velcro Anchor is designed to create secure load-rated anchor points on belts, harnesses and rails. The unique double-lock Velcro makes the anchor extremely secure whilst allowing this anchor to be attached without having to remove the item.  
 Built for extended and hard use the BiLock™ Velcro Anchor utilises high-strength webbing and a welded D ring. For added safety, it features contrast stitching which allows for quicker visual inspections.  
 As well as being a secure anchor point The BiLock™ Velcro Anchor features a Velcro pad ideal for docking the NLG Phone Case (101383) when not in use.

FEATURES

BiLock™ Velcro delivers secure tensile strength with dual Velcro layering  
 Quickly creates anchor points on standard tool belts, harnesses and rails  
 Super strong welded D Ring  
 Extended product life with high strength, wear-resistant webbing  
 Faster visual inspections with contrast stitching  
 Velcro docking pad works with NLG Phone Case (101383)  
 Can also be used to tether hand tools and power tools

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
