

NLG MEWP Bag

Product Code:
101423

Max Load:
30 KG / 66 LBS

OVERVIEW

The MEWP Tool Bag has been specifically designed to keep your tools secure and accessible when working from a platform. The TriLock™ attachment system keeps the bag secure to a fixed rail, whilst 7 internal load-rated anchor points keep your tools securely tethered and ready to use.

NLG ID™
Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

**Third-party
tested and certified**

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The MEWP Tool Bag is specifically designed for workers on elevated working platforms who need a secure tool bag. It can be attached quickly and securely to any approved rail on a MEWP, scissor lift, cherry picker or scaffold.

Utilising a range of advanced materials, this exceptionally durable bag has 6 load-rated attachment rings internally and 2 externally, a main compartment divided into 3 pockets. All lined with a high-vis mesh for improved visibility, the main compartment and two small pockets provide plenty of options to organise your equipment and tools.

The TriLock™ Velcro mounting straps provide an easy and secure attachment to an approved rail or scaffolding whilst the elasticated stabilisation loops provide extra stability whilst the bag is in use.

The MEWP Tool Bag is ideal for shared workspaces and has been proven to perform in some of the harshest working conditions known.

FEATURES

- Main compartment divided into 3 organisation pockets
- 4 External pockets for storage of small parts and tools
- 7 Integrated anchor points for multiple tool lanyard attachment
- Mega Mesh™ provides improved visibility, drainage and ventilation
- TriLock™ Velcro mounting straps for easy and secure attachment
- Constructed from heavy-duty PVC which is UV-stabilised, mildew resistant and easy to wipe clean
- Built-in drain vents to keep tool bag ventilated and dry
- Hi-vis reflective bars improve safety and detection in low-light conditions

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
