

NLG 360 D Ring Locking Loop Tool Tether

Product Code:
101495

Max Load:
3 KG / 6.6 LBS

OVERVIEW

The NLG 360 D Ring Locking Loop Tool Tether is a versatile tether point with a wide range of uses, from securing individual bolts to tethering long-handled tools such as nips. Featuring a 360° rotating D Ring it allows the tool you are tethering to move freely and avoid tangles.

NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The NLG D Ring Locking Loop has a wide range of uses. It can be used on individual bolts that need to rotate whilst installing, from small bolts right up to facade bolts. It's also ideal for long-handled tools, like nips, that require the rotation point further away from the tool to avoid tangling. The tried and tested D Ring Locking Loop Tether will be a valuable addition to your tool tethering equipment due to its versatility.

The clever design of the loop means that it automatically self-tightens in the event of a drop and is fixed to prevent incorrect installation. The 360° D Ring stops tangling and makes it a great attachment point for rotating tools.

FEATURES

Unique self-tightening loop design constructed from strong climbing cord
 Tough plastic toggle for fast and secure cinching
 Robust, tangle-free 360° D Ring
 Faster visual inspections with contrast stitching

TECHNICAL SPECIFICATION

Max Load: 3 KG / 6.6 LBS
 Safety Standards: ANSI/ISEA 121-2018, CE / UKCA, NS 9611:2022+AC
 Load Tested and Third-party Certified: Dynamic (2:1 Safety Factor)
 NLG ID™ Technology / Scannable Compatible
 Unique Serial Number
 Dimensions: 400mm (L) x 25mm (W)
 Max Lanyard Length: 200 CM / 78 IN

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
