

NLG Bungee Chainsaw Lanyard

Product Code:
101609

Max Load:
10 KG / 22 LBS

OVERVIEW

The Bungee Chainsaw Lanyard is ideal for securing your chainsaw in an environment where there is an abundance of snagging hazards. The easy-stretch bungee keeps the lanyard compact and easy to use, with the metal O ring allowing the user to quickly dock the chainsaw when not in use.

NLG ID™
Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The Bungee Chainsaw lanyard is a simple and dependable solution for securing your chainsaw in confined environments with an abundance of snagging hazards. Despite it being a low-cost option, it doesn't compromise on durability, functionality or safety.

The lanyard uses the unique SoftTouch™ webbing and easy-stretch bungee that remains supple in the harshest working environments and provides all-day comfort. The lay-flat loops on either end, ensure low-profile attachment points on the tool and harness for safety and comfort in use. Additionally, the lanyard features a metal O ring for easy storage and docking of your chainsaw when not in use.

With safety in mind, the visual wear indicator strips provide a quick and easy check for inspection prior to use and allow damage affecting the integrity of the lanyard to be identified.

FEATURES

Ultra-durable wear-resistant Soft Touch™ Nylon Webbing
 Easy visual inspection with contrast stitching and edges
 Bungee feature ensures that it is a minimum snagging hazard and reduces shock loading
 Lay flat webbing loops ensure low profile attachment points on tool and harness for safety and comfort in use.

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
