

NLG Super Bungee Chainsaw Lanyard

Product Code:
101610

Max Load:
10 KG / 22 LBS

OVERVIEW

The Super Bungee Chainsaw Lanyard is the ultimate solution to securing your chainsaw whilst working at height. The Super Bungee provides a compact footprint to help avoid snagging whilst the easy-stretch nature allows 2 metres of reach and also dampens the force in the case of a drop.

NLG ID™
Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party
tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The result of a long development, working closely with the Arb Industry, The Super Bungee Chainsaw lanyard is the benchmark for chainsaw lanyards. The lanyard uses unique SoftTouch™ webbing which remains supple in the harshest working environments, whilst the Super Bungee both dampens forces in the event of a drop and provides all-day comfort. With safety in mind, the visual wear indicator strips provide a quick and easy check for inspection prior to use and allow damage affecting the integrity of the lanyard to be easily identified. Complete with two small webbing loops for attaching your own hardware, and a larger lay-flat loop which provides a low-profile attachment point for either the tool or harness for safety and comfort.

FEATURES

Ultra-durable wear-resistant Soft Touch™ Nylon Webbing
 Easy visual inspection with contrast stitching and edges
 Compact Super Bungee reduces snagging hazards whilst providing easy reach and extension
 Reduced shock loading due to clever bungee design
 Lay flat webbing loops ensure low-profile attachment points on the tool and harness for safety and comfort in use.
 An integral loop allows for a choice of connectors when holstering.

TECHNICAL SPECIFICATION

Max Load: 10 KG / 22 LBS
 Safety Standards: ANSI/ISEA 121-2018, CE / UKCA, NS 9611:2022+AC
 Load Tested and Third-party Certified: Dynamic (2:1 Safety Factor)
 NLG ID™ Technology / Scannable Compatible
 Unique Serial Number
 Dimensions: Extends from 80cm to 200cm

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
