

# NLG Spin Tether™

Product Code:  
101670

Max Load:  
0.5 KG / 1.1 LBS

## OVERVIEW

The NLG Spin Tether™ provides an easy-to-install solution for tethering rotating tools, such as screwdrivers and allen keys. Featuring a unique design it creates a secure tether point without hindering the use of the tool itself as it allows full 360° rotation.

## NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

## Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact [team@neverletgo.com](mailto:team@neverletgo.com).

DESCRIPTION

The NLG Spin Tether™ is the ideal solution for creating a secure tether point on a rotating, parallel-shafted tool such as screwdrivers or allen keys. It can be retro-fitted without the need for any additional tools to any tool with a shaft from 3.9-9mm - one size fits all.  
 Simply fitted and tightened by hand, the patented device's non-metallic content also allows the tethering of tools for use in metal-sensitive and non-conductive areas. The spinning ring delivers uninhibited tool movement through 360 degrees.undefinedThe NLG Spin Tether™ is constructed from advanced polymers, combined with the unique SoftLock™ core, to provide years of grip performance in the harshest environments.

FEATURES

Non-invasive and retrofittable tether point for screwdrivers, pens and allen keys  
 Universal fit for tools with parallel shafts between 3.9 - 9mm in diameter  
 Tangle-free solution that allows for full rotation of the tool whilst tethered

TECHNICAL SPECIFICATION

Max Load: 0.5 KG / 1.1 LBS  
 Safety Standards: ANSI/ISEA 121-2018, CE / UKCA, NS 9611:2022+AC  
 Load Tested and Third-party Certified: Dynamic (2:1 Safety Factor)

Dimensions: 55mm (H) x 30mm (W) x 30mm (D)  
 Max Lanyard Length: 120 CM / 48 IN

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
