DESCRIPTION

The Rope/Pro™ Backpack is an all-in-one storage solution for storing and transporting personal equipment, rope or hardware with ease. The padded shoulder straps and back pad provide extra support when carrying heavy loads whilst the weather-resistant roll-top keeps the contents secure and easy to access.

Featuring our unique Innervis™ material, the Rope/Pro™ Backpack will keep the contents safe and easy to manage due to the excellent interior visibility and superb protection from the elements. If the contents were to get wet, an external allows quick access to the main compartment and helps increase airflow.

With organisation in mind, the internal and external zippered pockets provide great places to store small personal items and If you are transporting rope the dual colour-coded loops at the base and top make it easy to manage.

FEATURES

Innervis™ material provides increased interior visibility and protection from the elements
 Weather resistant roll-top closure
 Comfortable padded shoulder straps
 External zippered pocket for organising small items
 External zip provides quick access to the main compartment or allow ventilation to help dry the contents

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
