Large → 101275

MAX LOAD
↳1KG / 2.2LBS

NLG ID
Scan the orange tags on compatible NLG products to access detailed product info, certification and installation videos.

TIP
For easy installation use a pair of needle nose or split ring pliers.

01

Select the correct size of Tether Ring™ that allows enough room for lanyard connection. For shaped tools, ensure that it is small enough not to slide off either end.

02

Use pliers to separate the Tether Ring™ and thread onto the tool, in the same manner as a key ring.

03

Test the tether point before putting the tool into use.
