

## INSTRUCTIONS

# HELMET LANYARD

### CODE

↳101708

### MAX LOAD

↳N/A

### NLG ID

Scan the orange tags on compatible NLG products to access detailed product info, certification and installation videos.

### TIP

If the accessory slot is not available because integrated hearing protection is being used, attach the loop end to the helmet's harness system.

01

Pass the loop end through the helmet accessory slot.

02

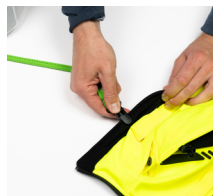

Pass the Tough Teeth™ clip through the loop and pull tight to create a cinch.

03

Check the lanyard is securely attached to the helmet.

04

Attach the Tough Teeth™ clip to your garment and check that it is securely fastened.
