

INSTRUCTIONS

FLEX LINESMAN BAG

CODE

↳101723

MAX LOAD

↳30KG / 66LBS

NLG ID

Scan the orange tags on compatible NLG products to access detailed product info, certification and installation videos.

TIP

When working with the bag open, the zip can be rolled down to create a smooth snag free edge. Roll it back up when ready to close the zip.

01

Ensure that the bag is properly secured to the belt, harness or piece of equipment before starting work - all three straps must be fully engaged.

02

Ensure that all tools in the bag are secured via a lanyard (no single tool above 5KG) to a D ring on the bag, and that the compartments are secured closed before climbing or descending.

03

Inspection of the Linesman bag and tethering equipment is the users responsibility on a pre-work and post work basis - please see inspection checklist.
